Position Description

Role Purpose
Dedication to provide BLS/ALS training to other Hospital staff would be appreciated.

Echo skills would be appreciated.

Provide contemporary comprehensive specialist services for optimal patient outcomes and provide support training to clinicians across multiple disciplines to achieve quality education and safe clinical practice.

Key Accountabilities
- Provide best practice evidence based clinical services to achieve quality patient outcomes.
- Undertake supervision and education within the clinical environment of junior medical staff and other relevant staff to foster safe clinical practice.
- Utilise information systems to enable informed decision making and care planning.
- Communicate with staff and clinicians to ensure quality and continuity of care.
- Actively participate in risk management and quality programs to improve organisational processes and own practices.
- Comply with relevant legislation and regulations, NSW Ministry of Health policies and WNSWLHD procedures to assist in meeting Activity Based Funding, Commonwealth and State targets.

Key Challenges
- Managing and prioritising competing demands to meet service needs.
- Providing leadership in the resolution of conflicts.

Key Relationships
Key Internal Relationships
Who
Medical Administration.

Who
Medical Officers and other Healthcare Professionals.

Who
Patients/ Clients, their families and relevant parties (in accordance with legislation related to confidentiality and privacy).

Why
Liaise over administrative, contractual, remuneration and other matters to assist with the provision of efficient and effective clinical services.

Why
Provide clinical leadership, teaching and patient management; collaborate regarding patient care to enable delivery of best practice and care.

Why
To provide appropriate, high quality, patient centred care which meets needs and expectations in line with CORE values.

Public Sector Executive Role - Relationships at Ministerial Level
Other Requirements
The role and its responsibilities are to be carried out in a manner that is consistent with all relevant delegations, policies and procedures, at both the WNSWLHD and NSW health levels.
Consistent with this, all employees are:
1. Expected to model the NSW Health values and ensure all workplace conduct aligns with these values and the NSW Health Code of Conduct.
2. Required to identify, assess, eliminate/control and monitor hazards and risks within the workplace, to the extent of delegated authority for the role, as per Work Health Safety policy/procedure.
3. Expected to provide safe, high quality healthcare and services, identify and manage clinical risk as applicable to the role, and participate in continuous improvement activities, in line with WNSWLHD’s strong commitment to quality and safety.

Selection Criteria
1. Eligible for registration with the Medical Board of Australia as a Specialist, and/or overseas trained specialist pathways.
2. Demonstrated ability to work effectively as part of a multidisciplinary team and provide leadership of a team.
3. Demonstrated effective clinical communication through the use of information technology and written, verbal and interpersonal skills.
4. Demonstrated commitment to teaching, continuing education, research and quality improvement.
5. Availability to participate in an on-call roster and to respond on site within a reasonable time.
6. Fellowship of the applicable College.
7. Commitment to building world class, sustainable regional Intensive Care services within the Western NSW LHD and demonstrated receptiveness to peer review with the ability to critically evaluate one’s own practice and change or evolve as required.
8. Demonstrated technical and professional competence as an Intensive Care Physician, with clinical hospital experience in Intensive Care Medicine in Australia within the last 2 years.
