

Visiting Medical Officer Intensivist Port Macquarie Base Hospital

Port Macquarie Base Hospital is seeking a dedicated and skilled Intensivist to join our dynamic team as a Visiting Medical Officer (VMO).

The successful candidate will be responsible for providing contemporary, comprehensive specialist care for ICU/HDU patients in collaboration with co-admitting VMOs. They will play a key role in teaching and supporting junior doctors within the unit and across the hospital. Additionally, the role involves close liaison with patients and families to ensure compassionate care, active participation in the hospital's quality and safety initiatives, and contribution to research undertaken in the unit.

Port Macquarie Base Hospital's Level 5 ICU is a 10-bed combined ICU/HDU. The unit manages a diverse casemix of adult medical and surgical patients, with occasional paediatric admissions requiring transfer to a specialist paediatric ICU. Our team of specialist intensivists brings expertise across anaesthesia, emergency medicine, general medicine, and echocardiography, fostering a collaborative and innovative environment.

Position Classification: Visiting Medical Officer

Requisition ID: REQ538206

Advertising Closes: 6 January 2025
